Dear Parents and Carers,

### Budd's Lane Highway Works

Following the road works on Budd's Lane and at the Camp Road junction, you may have noticed that new Parallel zebra crossings have been installed. In the Summer Term, we held an assembly to explain how these work and the attached leaflet gives you further information.

In addition to the leaflet, in the interests of the safety of all road users, I have also been asked to share the following information:

- The pavement on the school side is now for shared use with cyclists, so pedestrians will need to look out for cyclists and cyclists need to dismount if there is a large group of pedestrians blocking the path.
- Any cars parked on the school side of Budd's Lane in the permitted sections of the road, need to look for cyclists on the pavement before opening their door.
- Pavement parking is not acceptable in any circumstances and parking restriction such as yellow lines and zigzags need to be observed as these are now enforceable with a Traffic Regulation Order resulting in a Fixed Penalty Notice and fine.
- The footway on the other side of Budd's Lane has also been widened so pedestrians can use this without conflict with cyclists and then they can cross at the zebra crossing outside the Infant School entrance or the pinch point next to the Junior School side entrance.
- The speed limit is now 30 mph for the entire length of Budd's Lane, but at school times it would be advisable if families could keep it to 20mph for children's safety.

Furthermore, the Garrison Pool car park has now been sold and will no longer be available for parking. Families are being advised to use Hampshire Road car park, Guadeloupe car park or Martinique House car park whilst a new temporary car park is being built.

Yours sincerely,

Mrs A Larby  
Deputy Headteacher.
